

The era when the transportation industry harnessed the trend of cultural consumption and excess by providing limousine services, was a lucky day for Ron Ernenwein, President & CEO of AA Transportation. Established in 1996, AA Transportation has been providing limousine services for weddings and special events throughout Central Massachusetts and has grown to becoming the largest limousine company in Central Massachusetts. Customers are very satisfied with the reliable service and personal touch to details that AA Transportation provides to make that special occasion even more memorable. It's a direct reflection of how satisfied customers are because they keep coming back and refer AA to their friends and family. Ron relays, "Over the years, we have built a reputation of being the most reliable service around. What makes us special is that we offer service with a personal touch." With over 300 employees, AA Transportation's chauffeurs are full time and dedicated to being professional. Ron states, "Our chauffeurs work strictly for AA. When you reserve your limousine service from us, you are guaranteed to get an experienced Chauffeur who has gone through a rigorous background check and guaranteed to have a clean driving record."

The staff at AA Transportation love weddings. They provide limousine service in excess of 500 weddings a year. Knowing that it is one of the most important events in a couple's new life, AA Transportation extends itself to make it special. AA Transportation offers the "perfect" and complete wedding package, paying attention to every detail. The package includes a tuxedoed chauffeur, champagne, soft drinks, three-hours of service (with a half-hour grace period), as well as red carpet service making each bride feel as if she is the star at her own Academy performance...her wedding day.

AA Transportation's professional, detail-oriented drivers are trained to give you the best service possible. And don't forget that there are many vehicle options to choose from. The helpful staff will review all limousine models ensuring that the vehicle can accommodate any size wedding party. Ron states, "We can transport bridal parties of up to 40, while also offering mini coach and school buses for whatever your shuttle needs may be."

The Chauffeurs are also trained to work with the photographers for the perfect and unique photographs that will guarantee to be in your album. They even color match napkins and other items in the limousine to match the color theme of the wedding. Satisfying brides and grooms for over a decade, AA Transportation knows that they only have one chance in a lifetime for that couple to get it right. The AA Transportation team is here to serve you and look forward to earning your trust.

Tips for Couples:

Don't rely on reservations of limousines by telephone alone. For many couples, this is their first limousine reservation experience. Go visit the company on site. Look at the type of limousines available. Ask if their drivers are full time or contractors who work part time when they are available. Sit in one of the vehicles and imagine that special day. Is it big enough, the right color...it's amazing how things look and feel in person.
